ENGLISH AND CHINESE DICTIONARY
WITH THE
PUNTI AND MANDARIN
PHONETIC.
An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong.

For comprehensive and practical service this work stands unrivalled. All the new words which the Chinese of late years have compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are given in Chinese and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Puncti pronunciations are given, the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously attained, and disposing with vast margins and vacant spaces which have heretofore characterized Chinese publications.

To illustrate the vast scope of the work, the following facts are submitted for consideration. (Chinese Vocabulary contains about 16,000 Chinese characters, and Mecher's English and Chinese Dictionary about 30,000, whilst this work contains more than 100,000 English words, and upwards of 60,000 Chinese characters. Again, despite all the grammars and other elementary works as yet published, the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have a general meaning. Of these examples this work contains more than five times as many as any other Dictionary hitherto published.

For practical purposes, the arrangement of the work is so complete, that a reference to its pages enables a person who understands English to communicate effectively with natives who understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed are conversant, and every word is put in Chinese in English and interesting in Chinese cannot but be invaluable occasionally. It comprises upwards of two thousand large quarto pages.
